STRATUS SLIM
SLIDE AUTOLOCK

aluminium, anodized
Art.no.: FP24B-Y

The STRATUS SLIM is the light aluminium version of the STRATUS carabiner for 25 mm paragliding harnesses. Equipped with the special Slide Autolock gate this air sports carabiner is easy to use, yet very safe.

The STRATUS SLIM is the ideal allrounder for any kind of paragliding pilots – no matter if you are a pilot trainee or frequent “flyer”, cross country pilot or just paragliding on occasion.

The carabiner’s gate has been designed to minimize gate play when closed. This minimizes the negative effects of constant vibration stress on the carabiner. The Slide Autolock allows for reliable locking without lock manipulation, yet it can be opened easily by just pressing the slider.

The STRATUS SLIM may only be used for solo flights. The corresponding marking on the carabiner is the abbreveation “mono”. Due to its shape, the STRATUS SLIM carabiner is designed for the use of 25 mm webbings only!

The maximum service life is reached after 1500 flight hours or 5 years from first use. No CE!

use cases:
air sports

Technical specifications

BODY	**Material:** aluminium **Color:** yellow **Finish:** anodized

GATE	**Material:** aluminium **Color:** black **Finish:** anodized
LOCK	**Material:** brass **Color:** colorless **Finish:** polished
WEIGHT	60 g
LENGTH	78 mm
WIDTH	55 mm
MIN. BREAKING LOAD IN LONGITUDINAL DIRECTION	18 kN
LOCK	slide autolock
ADMISSION FOR SOLO AND/OR TANDEM	Mono
