

ANSI COBRA® PRO STYLE

25 mm

Art.no.: FX25KVF

The ANSI COBRA® PRO STYLE is a buckle that meets the highest safety requirements. When relieved the buckle can only be through pressing both clips at the same time. The locking mechanism makes one-sided locking of the buckle nearly impossible and is confirmed by a distinct 'clicking' sound.

The ANSI COBRA® PRO STYLE, certified according to the American safety standard ANSI/ASSE, is a little thicker and therefore stronger than the COBRA® PRO STYLE. With its 18 kN tensile strength breaking load it is even above the needed 15 kN of the ANSI norm. The buckles are marked with a minimum breaking load of 15 kN. However, we guarantee 18 kN and provide this information also in the technical data. All ANSI COBRA® PRO STYLE buckles are compatible. Certified according to ANSI/ASSE, CSA and, upon request, to NFPA.

use cases:

PPE, Fashion, air sports, tactical, equipment

Technical specifications

body	Material: aluminium Color: black Finish: ktl coated
clips	Material: brass Color: colorless Finish: polished
bar	Material: stainless steel Color: colorless Finish: polished
Breaking load tensile strength	18 kN
Weight	68 g
Recomm. webbing width	25 mm

Recomm. webbing width female part	25 mm
Slot width male part	14 mm
Slot width female part	8 mm
Outer dimension length	63 mm
Outer dimension width	40 mm
Outer dimension depth	12 mm
Technical design male part	adjustable
Technical design female part	non adjustable
Size of clips	standard
Country of origin	Austria
 Patented	
Standards	ANSI/ASSE Z359.12-2019, CSA Z259.12-2016 Class II, EN358:2018-11 (partial)
