PULLEY PRO
XS

plain bearing
Art.no.: FL32AG

The newly developed Pulley PRO XS comes with two innovations that may be hard to spot but represent a leap in development: The pulley now has two plain bearings, which provide enhanced axial and radial support. This results in improved pulley characteristics and reduced noise.

The edges of the brass wheel have been chamfered to reduce wear on the line. This new pulley has a straight-aligned axle and is made from high-quality brass with a light-weight aluminum housing. Experience the future of pulley technology with the high-performance Pulley PRO XS.

use cases:
air sports

Technical specifications

BODY	**Material:** aluminium **Color:** colorless **Finish:** polished
ROLL	**Material:** brass **Color:** colorless **Finish:** polished
PLAIN BEARING	**Material:** polymer **Color:** white
WEIGHT	8 g
TOTAL LENGTH	3.1 cm
INTAKE	8 mm
INNER DIAMETER	10 mm
MIN. BREAKING LOAD	5 kN
COUNTRY OF ORIGIN	Austria

EAN CODE	9006381027729
