

PULLEY PRO XS 90 DEGREES

Art.no.: FL33AG

The newly developed Pulley PRO XS with 90 degrees offset roll axis comes with two innovations that may be hard to spot but represent a leap in development: The pulley now has two plain bearings, which provide enhanced axial and radial support. This results in improved pulley characteristics and reduced noise.

The edges of the brass wheel have been chamfered to reduce wear on the line. This new pulley has a straight-aligned axle and is made from high-quality brass with a light-weight aluminum housing. Experience the future of pulley technology with the high-performance Pulley PRO XS.

use cases:

air sports

Technical specifications

BODY	Material: aluminium Color: colorless Finish: polished
ROLL	Material: brass Color: colorless
WEIGHT	8 g
TOTAL LENGTH	2.9 cm
INTAKE	8 mm
INNER DIAMETER	11 mm
MIN. BREAKING LOAD	3 kN
COUNTRY OF ORIGIN	Austria
EAN CODE	9006381030675
