COBRA® FM
ALUMINIUM

20 mm, standard clips
Art.no.: FM20KFF

COBRA® FM buckles are based on the patented COBRA® Quick Release locking system, which prevents accidental opening as well as opening under load.

Thanks to their robust yet lightweight construction, they are ideally suited as a technical design element for bags and belts. Their functionality and low weight also make them an excellent choice for use in sports gear and dog collars.

This version of the COBRA® FM is intended for 20 mm webbing width. The ergonomically shaped brass clips of FM standard size facilitate opening the buckle. Both female and male part are non-adjustable. Therefore, the webbing needs to be sewn in on both ends.

Due to its lightweight design, the buckle is not intended for load-bearing applications (no PPE).

use cases:
equipment, Fashion, tactical

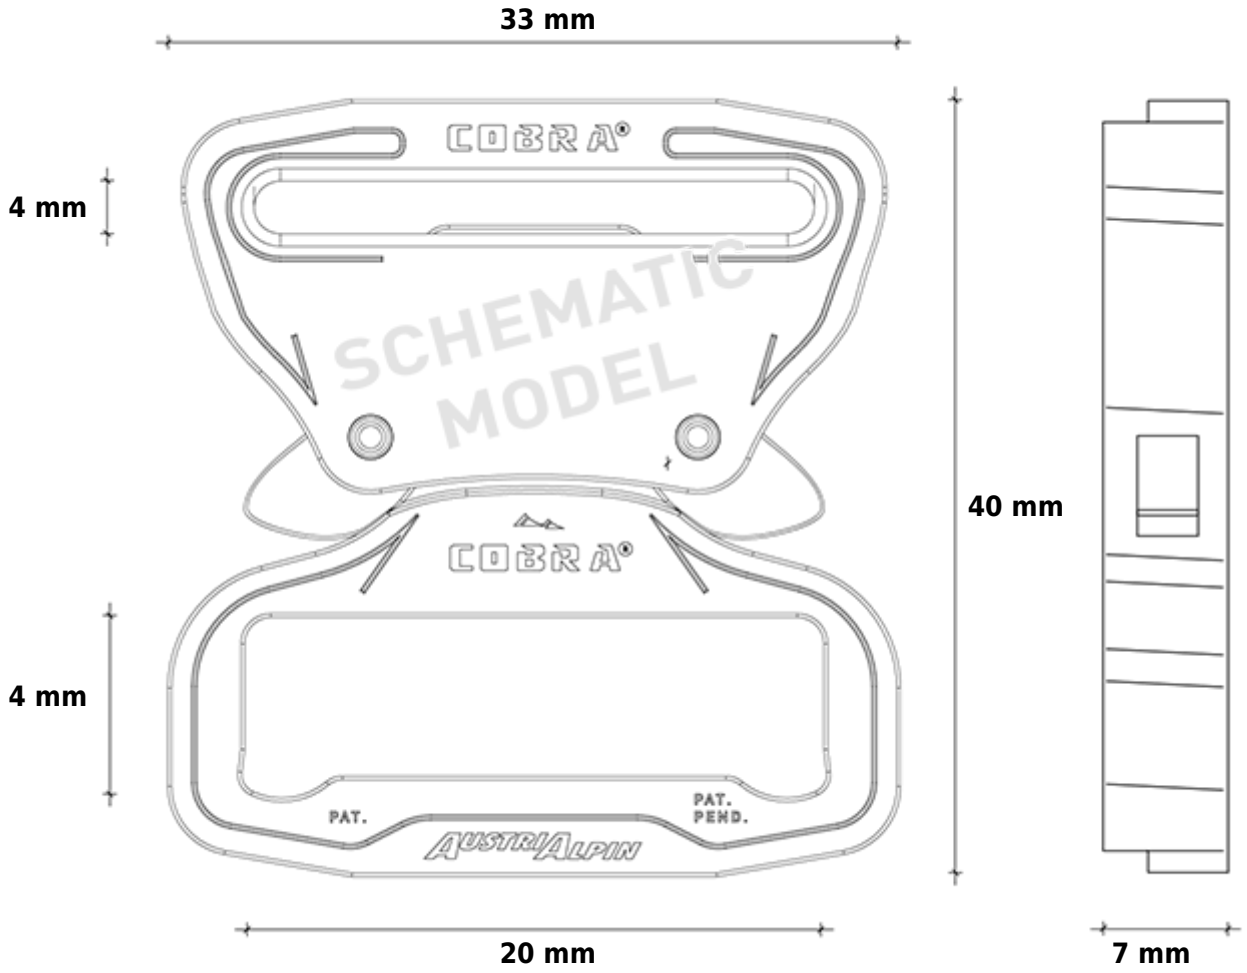

Technical specifications

BODY	**Material:** aluminium **Color:** black **Finish:** ktl-coated
CLIPS	**Material:** brass **Color:** colorless **Finish:** polished
BREAKING LOAD TENSILE STRENGTH	2 kN
