POWERFLY
SLIDE AUTOLOCK

stainless steel, polished
Art.no.: FP10A

The POWERFLY is a strong stainless-steel carabiner for 25/45mm paragliding harnesses. Equipped with the special Slide Autolock gate this air sports carabiner provides a maximum of safety, reliability, and durability. Due to its very high breaking strength, it is the ideal partner for Tandem and Acro pilots.

The carabiner’s gate has been designed to minimize gate play when closed. This minimizes the negative effects of constant vibration stress on the carabiner. The Slide Autolock allows for reliable locking without lock manipulation, yet it can be opened easily by just pressing the slider.

Due to the higher breaking strength of stainless-steel carabiners compared to aluminum carabiners, AUSTRIALPIN generally recommends using only stainless-steel carabiners for tandem flights. The corresponding marking on the carabiner is the abbreviation "mono+bi".

Due to its shape, the POWERFLY carabiner is designed for the use of 25/45 mm webbings only!

The maximum service life is reached after 1500 flight hours or 5 years from first use.

use cases:
air sports, PPE

Technical specifications

BODY	**Material:** stainless steel **Color:** colorless **Finish:** polished
GATE	**Material:** aluminium **Color:** black **Finish:** ktl-coated

LOCK	**Material:** brass **Color:** colorless **Finish:** polished
WEIGHT	139 g
LENGTH	83 mm
WIDTH	63 mm
MIN. BREAKING LOAD IN LONGITUDINAL DIRECTION	26 kN
MIN. BREAKING LOAD WITH OPEN GATE	10 kN
LOCK	slide autolock
ADMISSION FOR SOLO AND/OR TANDEM	Bi
GATE OPENING	8 mm
COUNTRY OF ORIGIN	Austria
EAN CODE	9006381611010
STANDARDS	EN 362:2004 (B)
