

STRATUS SLIM SLIDE AUTOLOCK

stainless steel, polished

Art.no.: FP24I

The STRATUS SLIM stainless-steel carabiner for 25 mm harnesses is the perfect companion for all your paragliding adventures. Equipped with the special Slide-Autolock gate, this carabiner is easy to use and ultra-safe.

The STRATUS SLIM is the ideal carabiner if you are looking for extra durable paragliding equipment. Due to its enormously high breaking load of 28 kN, it is also a reliable partner on tandem flights.

Thanks to the special Slide-Autolock gate, the STRATUS SLIM combines maximum safety with effortless usability. The gate's design minimizes gate play when closed, reducing the negative effects of constant vibration stress on the carabiner. The Slide-Autolock system allows for reliable locking without lock manipulation and can be easily opened by simply pressing the slider.

Technicalities

The "mono+bi" marking on the carabiner indicates that it is approved for solo and tandem flights. Due to its shape, the STRATUS SLIM is designed exclusively for use with 25 mm webbing. The maximum service life is reached after 1500 flight hours or 5 years. No CE certification.

use cases:

air sports

Technical specifications

BODY	Material: stainless steel Color: colorless Finish: polished
