

COBRA® PRO STYLE ALUMINIUM

25 mm

Art.no.: FY25KFS

The COBRA® PRO STYLE is the strongest and world leading safety buckle made of aluminium. Thanks to its patented locking mechanism and high breaking strength it meets the highest safety requirements. In combination with a fitting webbing, the minimum guaranteed load capacity is 9 kN tensile strength and 18 kN in loop configuration.

Features:

- Both clips need to be pressed at the same time to open the COBRA®. One-sided release by pressing only one clip is nearly impossible.
- A release under tension is impossible.
- A one-sided locking is nearly impossible. Locking is confirmed by a distinct “clicking” sound.
- The cut-out on the backside of the COBRA® PRO STYLE prevents dirt, dust, ice or snow from getting caught in the buckle, which increases the extreme performance capabilities and lifetime even more.
- All sizes and variants of the COBRA® PRO STYLE are compatible.

use cases:

PPE, Fashion, air sports, tactical, equipment

Technical specifications

BODY	Material: aluminium Color: black Finish: ktl-coated
CLIPS	Material: brass Color: colorless Finish: polished
BAR	Material: stainless steel Color: colorless Finish: polished
BREAKING LOAD TENSILE STRENGTH	9 kN
BREAKING LOAD LOOP CONFIGURATION	18 kN

WEIGHT	56 g
RECOMM. WEBBING WIDTH MALE PART	25 mm
RECOMM. WEBBING WIDTH FEMALE PART	25 mm
SLOT WIDTH MALE PART	4 mm
SLOT WIDTH FEMALE PART	17 mm
OUTER DIMENSION LENGTH	64 mm
OUTER DIMENSION WIDTH	39 mm
OUTER DIMENSION DEPTH	10 mm
WEBBING SLOT MALE PART	non-adjustable
WEBBING SLOT FEMALE PART	stretch, adjustable
SIZE OF CLIPS	standard
COUNTRY OF ORIGIN	Austria
 Patented	
STANDARDS	EN358:2018-11 (partial), EN ISO 9227
