

## TOP ANCHOR DEVICE

**horizontally aligned bolt hanger with ring**

Art.no.: HD04R

Simple rappel point with a horizontally aligned bolt hanger (10 mm) and an individually tested rappel ring for threading the rope. The horizontal alignment of the bolt hanger lets the ring hang freely. This makes it easy to rappel along the main axis and retrieve the rope smoothly. The risk of the rope jamming is significantly minimized.

Manufacturer's instructions: Use only with stainless steel bolts. Please note the latest UIAA release concerning stress corrosion in our knowledgebase.

### use cases:

sports climbing, canyoning, equipment
