SHELL.DON
CLIMBING HELMET

hard shell
Art.no.: HS06-B

With the SHELL.DON hardshell helmet your clever heads will stay safe during climbing and mountaineering! SHELL.DON doesn’t only convince with its comfortable, compact fit, but also with its stability and enhanced impact protection.

Its hard, impact-proof shell and its form protect the whole head perfectly, from the sides to the forehead and the back, and in this way ensure the necessary safety. In addition, a comfortable head band with a padded removable and washable fleece and a rotary knob for size adjustments provide for a perfect wearing comfort. Eight openings in the outer shell ensure an adequate ventilation even on hot summer days.

Our SHELL.DON also has 4 clips for attaching a headlamp and comes with a stylish polygon print.

use cases:
sports climbing, ice climbing, mountain sports, via ferrata
