

FERR.DA SCREWLOCK

stainless steel 40 kN

Art.no.: NW13A

The strong FERR.DA stainless steel carabiner is a reliable connector on the vertical. Its asymmetrical D-shape offers plenty of space for numerous connecting elements and complex rope structures.

The FERR.DA screwgate carabiner is equipped with a smooth-running brass sleeve. The special milling in the thread allows the locking mechanism to clean itself.

With an impressive breaking load of 40 kN, the carabiner guarantees maximum stability and safety. The round cross-section ensures gentle rope guidance and reduces abrasion even under dynamic loads.

Manufactured in Austria from high-quality stainless steel, this carabiner features outstanding corrosion resistance and durability. It is a reliable partner for use in extreme conditions.
