SP.ICE.R PRO

ICE AXE

45 cm, with hammer incl. handrest, pick protector
Art.no.: PP45HH-B

Ultralight performance ice axe for technical mountaineering in demanding terrain.

When every gram counts and maximum performance is key, the SP.ICE.R PRO is in its element. At just 290 g, it combines uncompromising lightness with advanced functionality.

Its ergonomically shaped head with a textured polymer insert sits comfortably in the hand and makes handling easy when carrying or quickly switching hands. The aggressive hardened-steel pick delivers precise placement and a reliable hold even on steep and challenging terrain.

A well-balanced shaft, made from high-strength aluminum, blends maximum stability with minimal weight. Grip grooves in the lower shaft provide a secure hold.

The SP.ICE.R PRO with hammer is the ideal companion for ambitious mountaineers who want outstanding performance and absolute confidence for technical mountaineering, ski mountaineering, and steep-face skiing, when every move matters. It comes standard with a tool-free adjustable handrest and a convenient pick protector.

Features:

- 100% Made in Austria.
- Ergonomic head with a textured polymer insert.
- Precisely shaped pick for reliable performance in technical terrain.
- High-strength aluminum shaft with grip grooves.
- Integrated carabiner holes in the ice axe head and spike.

use cases:
mountain sports
