

SKYWALK 10-POINT CRAMPONS

concept binding

Art.no.: SW10C

Our SKYWALK crampons are the best choice for trekking tours, firm snow and fast, easy mountaineering as well as not too demanding use on snow and ice. These resilient 10-point crampons made of steel with CONCEPT binding are suitable for non-crampon-compatible shoes, whereby also small feet are no problem. Our SKYWALK is size adjustable via its movable center bar and a snap-in feather. The bulbous shape of the anti-bot plates contributes to the removal of snow sticking to the shoe sole.

use cases:

mountain sports

Technical specifications

BODY	Material: steel Color: black Finish: powder coated
ANTIBOT	Material: polymer Color: red
BINDING	Material: polymer Color: white
WEIGHT	910 g
BINDING SYSTEM	step-in
