SKYWALK
10-POINT CRAMPONS

kombi binding
Art.no.: SW10K

Our SKYWALK crampons are the best choice for trekking tours, firn snow and fast, easy mountaineering as well as not too demanding use on snow and ice. These resilient 10-point crampons made of steel with COMBI binding are suitable for partly crampon-compatible shoes, whereby also small feet are no problem. Our SKYWALK is size adjustable via its movable center bar and a snap-in feather. The bulbous shape of the anti-bot plates contributes to the removal of snow sticking to the shoe sole.

use cases:
mountain sports
