

FERR.DA TWISTLOCK

steel 40 kN

Art.no.: TW22Z

The strong FERR.DA carabiner made of galvanized steel is a reliable connector on the vertical. Its asymmetrical D-shape offers plenty of space for numerous connecting elements and complex rope structures.

In the 2-way autolock version, it strikes a great balance between safety and easy use. The carabiner can be opened easily by twisting the sleeve and pushing in the gate. Once the gate is released, it locks automatically.

With an impressive breaking load of 40 kN, the carabiner guarantees maximum stability and safety. The round cross-section ensures gentle rope guidance and reduces abrasion even under dynamic loads.

Manufactured in Austria from galvanized steel, this carabiner is highly durable and comes with a climber-friendly price tag.

use cases:

PPE, equipment

Technical specifications

BODY	Material: steel Color: colorless Finish: zinc-plated
GATE	Material: steel Color: colorless Finish: zinc-plated
SLEEVE	Material: aluminium Color: black Finish: anodized
WEIGHT	233 g
LENGTH	113 mm

WIDTH	70 mm
MIN. BREAKING LOAD IN LONGITUDINAL DIRECTION	40 kN
MIN. BREAKING LOAD IN THE MINOR AXIS	16 kN
MIN. BREAKING LOAD WITH OPEN GATE	12 kN
LOCK	2-way autolock
GATE OPENING	24 mm
COUNTRY OF ORIGIN	Austria
EAN CODE	9006381029266
STANDARDS	EN 12275:2013 (B), EN 362:2004 (M), UIAA 121
