

FERR.DA TRIPLELOCK

steel 40 kN

Art.no.: TW32Z

The strong FERR.DA carabiner made of galvanized steel is a reliable connector on the vertical. Its asymmetrical D-shape offers plenty of space for numerous connecting elements and complex rope structures.

This 3-way autolock model offers a high degree of safety. The triplelock carabiner can only be opened by performing three successive actions: Lift the sleeve, twist it, and push in the gate. This makes unintentional opening virtually impossible, even in the event of strong movement, friction or snagging. Once the gate is released, it automatically locks.

With an impressive breaking load of 40 kN, the carabiner guarantees maximum stability and safety. The round cross-section ensures gentle rope guidance and reduces abrasion even under dynamic loads.

Manufactured in Austria from galvanized steel, the carabiner is highly durable and comes with a climber-friendly price tag.

use cases:

PPE, equipment

Technical specifications

BODY	Material: steel Color: colorless Finish: zinc-plated
GATE	Material: steel Color: colorless Finish: zinc-plated
SLEEVE	Material: aluminium Color: black Finish: anodized
WEIGHT	232 g
LENGTH	113 mm

WIDTH	70 mm
MIN. BREAKING LOAD IN LONGITUDINAL DIRECTION	40 kN
MIN. BREAKING LOAD IN THE MINOR AXIS	16 kN
MIN. BREAKING LOAD WITH OPEN GATE	12 kN
LOCK	3-way autolock
GATE OPENING	24 mm
COUNTRY OF ORIGIN	Austria
EAN CODE	9006381029273
STANDARDS	EN 12275:2013 (B), EN 362:2004 (M), UIAA 121
