

## DYNA.MIT

### SET OF 8

**dyneema cord 22 kN & OVALO carabiner**

Art.no.: ZS04RY-SET

A mountaineering set comprising of 4 cords in different lengths with dyneema core, each with an OVALO locking carabiner in the matching color, simplifying material handling while in the mountains.

These 4 cords are part of the set: 170 cm long in black, 290 cm long in grey and red, as well as 530 cm long in blue

Advantages:

- + Extra high breaking strength of 22 kN (single strand).
- + 6 mm diameter cord with dyneema-core and polyester sheath combine for optimal performance of a sewn sling (universal functionality) and cord (can be knotted without difficulty).
- + The color concept blue, green, red, black simplifies material handling, organizes the belay, makes trading off material easy and clarifies the setup of rescue systems.
- + The adjusted lengths allow you to select what you want as quickly as possible (black: simple, red/grey: double, blue: triple).
- + The ends are sewn at 5 cm to minimize slipping of the sheath with respect to the smooth dyneema core, and to allow for the correct knot placement.

#### use cases:

sports climbing, mountain sports

## Technical specifications

<b>CORE</b>	<b>Material:</b> dyneema <b>Color:</b> yellow
<b>SHEATH</b>	<b>Material:</b> polyester <b>Color:</b> mixed
<b>CARABINER</b>	<b>Material:</b> aluminium <b>Color:</b> mixed <b>Finish:</b> anodized

<b>BREAKING LOAD</b>	22 kN
<b>DIAMETER</b>	6 mm
<b>WEIGHT</b>	606 g
<b>SIZE</b>	170, 2x290, 530 cm
<b>GATE OPENING</b>	19 mm
<b>COUNTRY OF ORIGIN</b>	Czech Republic
<b>EAN CODE</b>	9006381006694
<b>STANDARDS</b>	EN 564:2015, EN 12275:2013 (B), EN 362:2004 (B), UIAA 121
