

## DYNA.MIT

### CORD WITH DYNEEMA CORE

**black, 22 kN, 170 cm**

Art.no.: ZS17RY-Z

170 cm long cord. Simplifying material handling while in the mountains. Extrahigh breaking strength of 22 kN (single strand).

+ 6 mm diameter cord with dyneema-core and polyester sheath combine for optimal performance of a sewn sling (universal functionality) and cord (can be knotted without difficulty).

+ The color concept blue, green, red, black simplifies material handling, organizes the belay, makes trading off material easy and clarifies the setup of rescue systems.

+ The adjusted lengths allow you to select what you want as quickly as possible (black: simple, red/grey: double, blue: triple).

+ The ends are sewn at 5 cm to minimize slipping of the sheath with respect to the smooth dyneema core, and to allow for the correct knot placement.

The carabiner shown in figure 2 is not included in the delivery.

#### use cases:

mountain sports, tactical

## Technical specifications

<b>SHEATH</b>	<b>Material:</b> polyester <b>Color:</b> black
<b>CORE</b>	<b>Material:</b> dyneema <b>Color:</b> yellow
<b>BREAKING LOAD</b>	22 kN
<b>LENGTH</b>	1.7 m
<b>DIAMETER</b>	6 mm

<b>WEIGHT</b>	46 g
<b>COUNTRY OF ORIGIN</b>	Czech Republic
<b>EAN CODE</b>	9006381691791
<b>SIZE VARIATIONS</b>	290 cm [Art.no.: ZS29RY-G] 290 cm [Art.no.: ZS29RY-R] 530 cm [Art.no.: ZS53RY-B]
<b>STANDARDS</b>	EN 564:2015
