

DYNA.MIT

CORD WITH DYNEEMA CORE

22 kN

Art.no.: ZS29RY-G

290 cm long, grey cord with extra high breaking strength of 22 kN (single strand). Simplifying material handling while in the mountains.

+ 6 mm diameter cord with dyneema-core and polyester sheath combine for optimal performance of a sewn sling (universal functionality) and cord (can be knotted without difficulty).

+ The color concept blue, green, red, black simplifies material handling, organizes the belay, makes trading off material easy and clarifies the setup of rescue systems.

+ The adjusted lengths allow you to select what you want as quickly as possible (black: simple, red/grey: double, blue: triple).

+ The ends are sewn at 5 cm to minimize slipping of the sheath with respect to the smooth dyneema core, and to allow for the correct knot placement.

The carabiner shown in figure 2 is not included in the delivery.

use cases:

mountain sports, tactical

Technical specifications

SHEATH	Material: polyester Color: anthracite
CORE	Material: dyneema Color: yellow
BREAKING LOAD	22 kN
LENGTH	2.9 m
DIAMETER	6 mm
WEIGHT	74 g

COUNTRY OF ORIGIN	Czech Republic
EAN CODE	9006381692965
SIZE VARIATIONS	[Art.no.: ZS17RY-Z] [Art.no.: ZS29RY-R] [Art.no.: ZS53RY-B]
COLOR VARIATIONS	 red [Art.no.: ZS29RY-R]
STANDARDS	EN 564:2015
