

DYNA.MIT
CORD WITH DYNEEMA CORE

22 kN
Art.no.: ZS53RY-B

530 cm long, blue cord with extra high breaking strength of 22 kN (single strand). Simplifying material handling while in the mountains.

- + 6 mm diameter cord with dyneema-core and polyester sheath combine for optimal performance of a sewn sling (universal functionality) and cord (can be knotted without difficulty).
- + The color concept blue, green, red, black simplifies material handling, organizes the belay, makes trading off material easy and clarifies the setup of rescue systems.
- + The adjusted lengths allow you to select what you want as quickly as possible (black: simple, red/grey: double, blue: triple).
- + The ends are sewn at 5 cm to minimize slipping of the sheath with respect to the smooth dyneema core, and to allow for the correct knot placement.

The carabiner shown in figure 2 is not included in the delivery.

use cases:
mountain sports

Technical specifications

SHEATH	Material: polyester Color: azure
CORE	Material: dyneema Color: yellow

BREAKING LOAD	22 kN
LENGTH	5.3 m
DIAMETER	6 mm
WEIGHT	135 g
COUNTRY OF ORIGIN	Czech Republic
EAN CODE	9006381695324
SIZE VARIATIONS	[Art.no.: ZS17RY-Z] [Art.no.: ZS29RY-G] [Art.no.: ZS29RY-R]
STANDARDS	EN 564:2015
