

CLIMBING INTO FALL WITH GOLD FISH, PAPNU, MAR.WIN & CO Product information and news straight from the source

Long anticipated, now finally arrived: the GOLD FISH autotube belay device! And just as promised, the Hard Coat™ coating of the HMS RONDO autolock carabiner is more robust and has a much longer life. We didn't want to leave anything to chance, and we were making improvements until the very end. Thanks for your patience!

And the GOLD FISH isn't the only new addition to our warehouse, one in particular is the light and strong PAPNU Chalk bag.

GOLD FISH autotube set

Hard coated

A second, even more robust version of the well established FISH Autotube adds more to the name GOLD FISH than just its color. Just like the FISH, the newly designed GOLD FISH comes as a set: The belay device is available in eye-catching gold with the standard anodized coating. The HMS RONDO Selfie 3-way-autolock is covered with Hard Coat™, a specialized anodized coating. Thanks to its double strength and higher base-hardness, this coating offers higher robustness and therefore a much longer lifetime - perfect for frequent use.
